

# TEACART ASSEMBLY INSTRUCTIONS

## Parts List

- (2) side frames
- (4) crossbars
- (4) screws
- (2) shelves

Make sure you have all the parts!

Insert the four crossbars into one side frame. Make sure they are completely inserted by tapping them with a rubber mallet or block of wood.

**DO NOT USE A METAL HAMMER!**

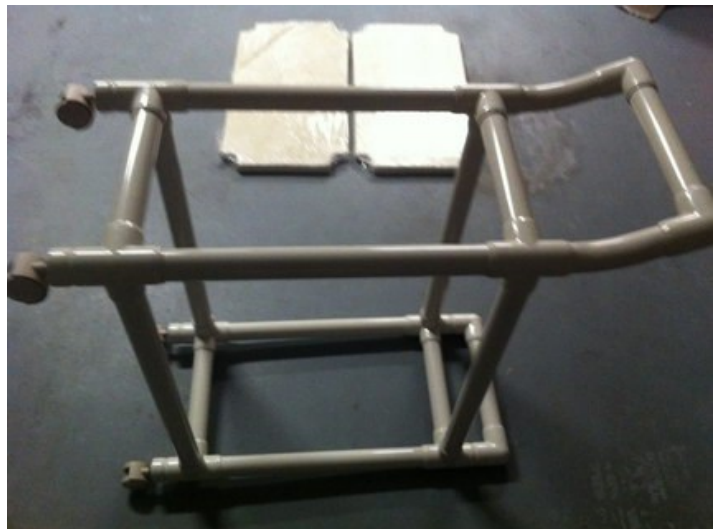

Position the other side assembly over the crossbars.

Once the crossbars are inserted, press the frames together by pushing down on them, then fully insert them with a mallet.

**DO NOT HIT THE FRAMES HARD WITH THE MALLET, OR THE PIPE OR FITTINGS MAY BREAK.**

Stand the teacart upright on a level surface and press down on the frame to align the frame.

Insert the (4) supplied screws into the pre-drilled holes underneath each of the crossbar fittings on both sides.

Slide the two shelves between the upright pipes and let them rest on the crossbars.

The shelves are not screwed down or attached in any way.

**That's all there is to it!**
